

DOCKET NO. 2000-0122-C - ORDER NO. 2000-0373

IN RE: Petition of BellSouth Telecommunications,) ORDER
Inc. to Establish Geographically Deaveraged) APPROVING
Rates for Unbundled Network Elements and) STIPULATION ON
Certain Network Combinations.) DEAVERAGED UNE
) RATES

BellSouth has now requested our approval of a Joint Stipulation (the Stipulation) (See Attachment 1) regarding UNE deaveraging, entered into between BellSouth, AT&T

Communications of the Southern States, Inc. (AT&T) and MCI WorldCom, Inc.(MCI).

In addition, all other parties to the case have filed documents with us that either agree with the terms of the Stipulation, or do not object to the terms of the Stipulation. A brief summary of the Stipulation follows.

The document discusses the Federal Communications Commission (FCC) announcement that its stay of its Rule 51.507(f) (the FCC's "Deaveraging Rule") will be lifted effective six months from the date of the release of an Order in CC Docket No. 96-45. That Order was issued November 2, 1999, thus the stay of the FCC's Deaveraging Rule is lifted on May 1, 2000. The Deaveraging Rule provides in part that "State Commissions shall establish different rates for elements in at least three defined geographic areas within the state to reflect geographic cost differences."

BellSouth, AT&T, and MCI state in the Stipulation that they do not believe that it is possible to conclude a proceeding to establish permanent cost-based deaveraged UNE rates in South Carolina by the date that the stay of the FCC's Deaveraging Rule is lifted, and the parties are willing to agree and stipulate to a plan for UNE rate deaveraging on an interim basis to avoid the necessity for this Commission to seek a waiver of the FCC's Deaveraging Rule. Accordingly, the parties proffer a non-precedential resolution to the dilemma.

The Stipulation establishes deaveraged UNE rates and rates for certain UNE combinations for BellSouth in South Carolina, which are set forth in an attachment to the Stipulation. The rates set forth are based on the statewide average rates established by the Commission's June 1, 1998 Order No. 98-214 in Docket No. 97-374-C.

Under the terms of the Stipulation, the deaveraged rates will take effect on May 1, 2000, unless the date is changed by FCC or Court edict, in which case the rates will take effect on the mandated date. These rates would then remain in effect until they are replaced by permanent deaveraged UNE rates established by this Commission. The deaveraged UNE rates in the Stipulation will be available to parties that have an interconnection agreement with BellSouth. The deaveraged rates are not subject to true-up in the event permanent rates result from this or any other Commission proceeding. Further, the Stipulation does not prevent any party from pursuing or opposing, at any time, in any proceeding, any issues concerning universal service funding, rate rebalancing, recovery of stranded costs, or other actions which may impact UNE and retail rates.

We have examined the terms of the proposed Stipulation, and we find it fair to all parties to this Docket. Further, the Stipulation furnishes a solution to the immediate dilemma of having deaveraged UNE rates in place by May 1, 2000. Clearly, the Stipulation is not precedential as to the establishment of permanent rates, nor does it prejudice any party in any manner. Accordingly, we approve the Stipulation, and adopt its terms for the establishment of interim deaveraged UNE rates. The deaveraged UNE rates shall become effective May 1, 2000, unless this date is supplanted by the FCC or a Court, in which case the rates will take effect on the mandated date.

In addition, we would state that the wire centers listed on Attachment A, page 2 of 2 of the Stipulation are difficult to decipher by the average reader. Therefore, Attachment

APRIL 24, 2000

PAGE 4

2 to this Order contains an “English Translation” version of the wire centers listed in Attachment A of the Stipulation.

This Order shall remain in full force and effect until further Order of the Commission.

BY ORDER OF THE COMMISSION:

Chairman

ATTEST:

Executive Director

DEAVERAGED RATES FOR UNBUNDLED)	
NETWORK ELEMENTS AND NETWORK)	
ELEMENT COMBINATIONS)	

JOINT STIPULATION REGARDING UNE DEAVERAGING

THIS JOINT STIPULATION ("Stipulation") is entered into by and among the following parties ("Parties"): BellSouth Telecommunications, Inc. ("BellSouth"); AT&T Communications of the Southern States, Inc. ("AT&T"); and MCI WorldCom Network Services, Inc. ("MCIW").

WHEREAS, the Federal Communications Commission ("FCC") has announced that its stay of Rule 51.507(f) (the FCC's "Deaveraging Rule") will be lifted effective six months from the date of the release of its Order Regarding New Mechanism for Federal Universal Service High Cost Support Provided to Non-Rural Carriers (CC Docket No. 96-45), which Order was released November 2, 1999, thus lifting the stay of the FCC's Deaveraging Rule on May 1, 2000; and

WHEREAS, the FCC's Deaveraging Rule provides in part that "State commissions shall establish different rates for elements in at least three defined geographic areas within the state to reflect geographic cost differences"; and

WHEREAS, the Parties do not believe that it is possible to conclude a proceeding to establish permanent cost-based deaveraged unbundled network element ("UNE") rates in South Carolina by the date the stay of the FCC's Deaveraging Rule is lifted; and

WHEREAS, the Parties are willing to agree and stipulate to a plan for UNE rate deaveraging to avoid the necessity for the Public Service Commission of South Carolina (“Commission”) to seek a waiver of the FCC’s Deaveraging Rule; and

WHEREAS, this Stipulation is the result of a compromise agreement reached between the Parties in order to accommodate the pending FCC deadline, and is not intended to set a precedent for the resolution of any issue related to UNE rates in this or any other proceeding.

NOW THEREFORE, the Parties agree as follows:

1. This Stipulation establishes deaveraged UNE rates and rates for certain UNE combinations (hereinafter collectively referred to as “deaveraged UNE rates”) for BellSouth in South Carolina, which are set forth in Attachment A to this Stipulation. The rates set forth in Attachment A are based on the statewide average rates established by the Commission’s June 1, 1998, Order No. 98-214 in Docket No. 97-374-C.
2. The deaveraged UNE rates in this Stipulation will take effect on May 1, 2000 (unless the effective date of the lifting of the stay of the FCC’s Deaveraging Rule is changed by the FCC or court of competent jurisdiction, in which case the revised date established will control). These rates will remain in effect until they are replaced by permanent deaveraged UNE rates established in this or any other Commission proceeding. The deaveraged UNE rates in this Stipulation will be available to parties that have an interconnection agreement with BellSouth. As between the Parties who are signatories to this Stipulation, the above-mentioned effective dates shall have the effect of a Commission order and will not be delayed pending formal amendment of the Parties' individual interconnection agreements. The deaveraged UNE rates in this Stipulation will not be subject to true-up in the event such rates are replaced by permanent rates resulting from this or any other Commission proceeding.

3. Nothing in this Stipulation shall establish any precedent for the Commission's resolution of any issue in this proceeding or in any other proceeding addressing the issue of UNE rates. In any proceeding before the Commission, each Party is free to advocate any position with respect to all such matters pertaining to the issue of UNE rates.

4. This Stipulation will be submitted to the Commission for approval as soon as it is executed by the Parties.

5. If this Stipulation is not accepted by the Commission in its entirety and without modification, it shall have no further force and effect and shall not be admissible for any purpose in any further proceedings in this docket, any appeal or other judicial proceedings related to this docket, or any future judicial or regulatory proceedings.

6. Each Party agrees that if this Stipulation is approved, it will not challenge in any forum: (i) the deaveraged UNE rates set forth in Attachment A, (ii) the period during which the rates are in effect, or (iii) the absence of deaveraged UNE rates for any elements not included on Attachment A. This Stipulation does not affect or prejudice the position of any party in any pending judicial or administrative proceeding relating to the level of any existing average or deaveraged loop rate and/or the appropriateness of the cost methodology used to establish any such rate. Nothing in this Stipulation shall prevent any party from pursuing or opposing, at any time, in any proceeding, any issues concerning universal service funding, rate rebalancing, recovery of stranded costs, or other actions which may impact UNE and retail rates.

IN WITNESS WHEREOF, the parties have executed this Stipulation on the dates set forth next to their respective signatures.

SOUTH CAROLINA
PROPOSED DEAVERAGED RATES FOR UNE LOOPS AND COMBINATIONS

	Statewide Loop Rate	Zone 1	Zone 2	Zone 3
UNE LOOPS (Recurring Rates)				
2-wire analog voice grade loop - service level 1	\$ 22.49	\$ 18.48	\$ 27.87	\$ 36.91
